

Combo Vending Machines

Combine the reliability of helix coil units with the check-in, check-out options of locker vending to help customers save money. Vend more items from one touchscreen interface. 1sourcevend inventory replenishment and control software is included in every unit.

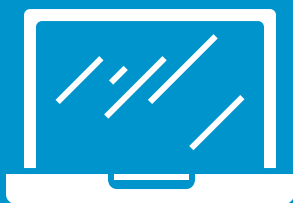

Use to vend:

Safety/PPE supplies, first aid kits, power or hand tools, lubricants, sealants, flashlights, paint, cutting tools and accessories, fasteners, welding supplies, maintenance supplies, cutting tools, abrasives, adhesives, sealants, batteries, and more.

Specifications:

Design your own combination vending machine based on your product vending needs. Custom setups available for most applications to increase capacity with less overhead.
