

Drawer Cabinets

1sourcevend's drawer cabinets help organize and track fasteners, tools and small parts.

Ideal for controlled access to small consumable items or high-cost MRO tooling, 1sourcevend inventory replenishment and control software is included with every unit.

Use to vend:

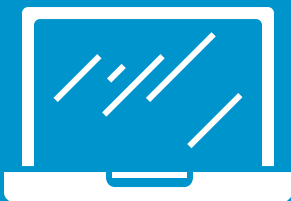

Small consumable items like fasteners or high-cost MRO tooling. Anything that fits in a drawer can be tracked and counted easily with a drawer cabinet.

Features:

- Touchscreen interface
- Easy-to-understand planogram with pictures and descriptions
- Embedded 4G cellular, Wifi and hardwire connectivity
- Drawers can be variably partitioned
- Training manual for machine setup and software support
- Easy maintenance

Benefits:

- 24/7 secure access to inventory at the point of use
- Restrict use by item, employee, hour, day, week or month
- Remote login capability for diagnostics and reporting
- Streamlined purchasing
- Interoperability with other machines onsite
